The Surface Book 2's keyboard is clicky and comfortable to use for long periods of time, and its trackpad is even better: It tracks smoothly and accurately, and it executes gestures and other Windows-related tasks with ease.. It also had the longest battery life of any laptop we tested this year by about 20 minutes, and you can even detach its screen and use it as a tablet if you want.. Its keyboard is shallow and its battery life is short, but it's the most powerful option for those who prefer Apple.

9 GHz Intel Core i7-8650U processor, 16 GB of RAM, and a 512 GB solid-state drive.. It has the best trackpad we've used on a laptop, as well But it has a shallow keyboard, it lacks legacy ports, it has a high price tag, and it suffers from a shorter battery life than we'd like.. Our pick Microsoft Surface Book 2 (13 5-inch) The Surface Book 2 has powerful specs and the best battery life and most accurate screen of any Windows laptop we tested.. Your guide Apple's flagship 2018 MacBook Pro is near the top of our list because it remains a superb laptop for video editing. [The Print Shop 2 For Mac Free Download](#)

The Surface Book 2 had some of the fastest 4K rendering speeds we tested, and it has an excellent keyboard and trackpad and a healthy variety of ports.. The MacBook Pro's 15.4-inch Retina display has a resolution of 2880×1800—lower than the 4K screens on the Surface Book 2 and the XPS 15 Touch—but in our tests it was more color accurate than its competition, and it's the only one of our picks that's technically accurate enough for color grading and print production work.. Buying OptionsThe Surface Book 2 configuration we recommend costs around \$2,900—we know! Keep reading—and it has a 4K display, an eighth-generation i7. It's reliable enough for most creative tasks, but not quite accurate enough for video color grading and print production.. It also has all the necessary ports and connections: two USB 3.0 ports, a USB-C port (though not Thunderbolt 3), as well as a full-size SD card reader, and a proprietary Surface Connect port. Its 4K display is the most accurate of the Windows laptops we tested this year, though it isn't accurate enough for video color grading or print production work; if you do those things, pick up the 15-inch Apple MacBook Pro.. It also reproduced more of the sRGB color gamut than the Surface Book 2, and it supports the DCI/P3 color gamut while our top pick doesn't.. It also comes with an Nvidia GeForce GTX 1060 with 6 GB VRAM, a powerful graphics processor that can handle demanding tasks such as quickly exporting 4K footage in Adobe Premiere Pro or gaming.. We recommend the \$3,150 model—which is about \$250 more than the Surface Book 2—with a 2TB SSD. Justin KrajeskiAfter spending 30 hours researching and testing the top five contenders, we found that the Microsoft Surface Book 2 is the best laptop for creative professionals.. It comes in two screen sizes, with the larger, more powerful 15-inch model now equipped with a six-core eighth-generation Intel Core-i7 processor and up to 32GB of memory – which will make a big difference when rendering and exporting video. 0041d406d9 [download Imtoo Dvd Mac Crackz](#)
